Let's build something beautiful together through music!

FORT PITT
PIANO
CO.

Name the piano
you really want.

You know the piano.

It's the one preferred by nearly every concert pianist you can think of.
The one whose tone, touch, and musical tradition have virtually defined what a piano is for 165 years.

You know the piano. It's the one you think you can't afford.

But look at it another way. No good piano is inexpensive, and we can show you how the best one may
be more affordable than you think.

And since it's the piano you want, it's also the piano other people want.

So it depreciates very slowly. And with proper care, it will last for generations.

The piano you really want is, really the only piano you should buy.
